## 2017-20 Plan Summary

### The Story

Describe the students and community and how the LEA serves them.

Ánimo Ellen Ochoa Charter Middle School is located in the East Los Angeles/Boyle Heights area and serves 375 students in grades 6-8. The school's population is 99% Latino, and our mission is to empower students and their families. There are several innovative features of the academic program at Ánimo Ellen Ochoa (AEO) that promote college, leadership, life and student growth. This includes structured school-wide advisory classes, elements of integrated English Language Development in all classes, organized use of Thinking Maps across all content areas, as well as our "double-blocking" programmatic structure for both English and Math courses. In addition, we have made great strides in bringing forth a college going culture at the middle school level. All students have access to college level courses via a partnership with East Los Angeles College, and have opportunities to participate in activities, workshops and initiatives with their parents that inform them of college requirements

### LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

This year's LCAP is centered in three areas: increasing student proficiency, decreasing chronic absenteeism, and focusing on school culture by working to build relationships between all members of the school community.

Enhancing student culture will lead to stronger relationships, increased attendance, and enriched learning experiences. To this end, we will create opportunities for students to be involved in school by developing a Student Council Advisory class, enhancing Astro Student Ambassadors, working with our after school program to develop an athletic program, increasing access to accelerated academic opportunities for students via East Los Angeles College, and developing student clubs. Students and parents both identified this as a key initiative we need to take in our 4th year as a middle school.

To combat chronic absenteeism and chronic tardiness, the school is designing a full scale effort to enhance, recognize, and reward attendance improvement. Using the school's existing Advisory program, the school will educate students on the importance of strong attendance and the correlation to high academic achievement. By having students set academic goals early on, students will feel empowered to monitor their progress at key points throughout the school year. The school is also developing a Positive Behavior Intervention and Support system that recognizes student's positive actions and improvement. These students will be recognized during award ceremonies three times a year. In addition, the school will strengthen our current Student Attendance Review Team program, create Attendance Agreements for students/families who need specialized supports, and reward students for incremental progress made towards increasing their attendance at school.

While those measures are important, the school's primary mission is to prepare students for success in high school, college, leadership, and life. The school is making strategic hiring decisions, developing units of Professional Development with the Instructional Leadership Team, and restructuring its in-classroom support for teachers by working with our Curriculum Specialists and developing coaching abilities with the Instructional Leadership Team. The school will closely monitor instruction, model lessons for teachers, access curriculum specialists and new teacher mentors to ensure that our teachers have coordinated coaching in 2018-2019. The school will track our progress on classroom observations during bi-weekly coaching with the Area Superintendent. The school will also plan monthly data reviews to monitor more closely student progress on common core standards using all available assessment tools. The school will ensure that all English Learners are enrolled in a course designated to enhance language acquisition. Ánimo Ellen Ochoa recognizes that its students' achievement is paramount. These 3 priorities will be the filters used in decision-making, and the measures reviewed to determine if the school has been successful in these endeavors.

## Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

## Greatest Progress

Ánimo Ellen Ochoa has created an atmosphere where students enjoy attending school. We maintained a 96% ADA rate the previous year. 95% of students and families indicated that they would recommend the school to a friend on our Stakeholder Feedback Survey for the past two years.

Parents feel welcome at Ánimo Ellen Ochoa. The school has full parent participation on our School Advisory Council. The Parent Coordinator hosts monthly Parent Workshops and is committed to increasing parent participation. In addition, during the 2017-2018 school year over 50 parents participated in the Parents for Quality Education (PIQE) academy. Parents also have the opportunity to give open feedback during monthly Coffee with the Principal. During this time, they also are informed about the exciting things going on for students on campus.

To ensure we have filled all teaching positions, Green Dot has created a teacher preparation program in partnership with Loyola Marymount University entitled "Adelante" to ensure that all teachers become fully credentialed within their first year of employment.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

## **Greatest Needs**

Although the goal of students with disabilities and English Learners meeting expectations on the SBAC was met for the 2017-2018 school year, the school’s overall student performance was below expectations in Mathematics. This was true for students overall, as well as for Socioeconomically Disadvantaged. The school is working to provide substantial, consistent instructional coaching to each Math teacher. In addition, the Math Instructional Lead, Green Dot Math Curriculum Specialist and Administrative team have worked closely to assure that core teachers and intervention teachers are collaborating and using data and curriculum to inform day to day instruction. The school will continue to use an online intervention program and assessments that are predictive of SBAC performance.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

## **Performance Gaps**

Given the limited number of years of operation, the school’s data does not indicate any performance gaps between student populations. The school is working to increase achievement for all students in all subgroups.

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

## **Increased or Improved services**

For the 2018-2019 school year, the school will prioritize small class size in intervention Math and ELA courses. As stated above, although goals were met in the ELA SBAC for students with disabilities and English Learners students, the school is not performing at the same level as schools in the local area. Due to this and the need for improvement with Math proficiency, the school will prioritize instructional leadership in the allocation of time for the administrator's responsibilities. The school will differentiate supports for our various departments based on internal assessments and provide more 1:1 coaching and observational feedback and modeling in Math classes. In addition, all Math teachers will implement CUBES, academic discourse and writing/reading off of Thinking Maps to sharpen student’s mathematical reasoning skills and support them in being successful on real world Math applications.

The school will empower students by informing them of their data, and facilitating goal setting with all students in Literacy, Math, and in Language Proficiency with all English Learners. In addition, the school will begin to develop school-wide instructional strategies that support key concepts in Math, Science, and History and to deepen students' background knowledge. The school will align all curricular field trips to the Common Core Curriculum Standards to maximize instructional time and provide enriching learning experiences for all students.

The school will implement a robust system for identifying foster youth by training the office team to seek information that will help identify and provide services for students who may be in foster care. The school counselor will coordinate supports and interface with outside case carriers, social workers, and wrap around services to facilitate acceleration of the impact of services provided to each student to meet their needs. Additionally, all Green Dot schools recently enrolled in LACOE's educational passport system database to help us better identify foster youth, streamline the enrollment process and provide appropriate supports to students. Once a foster youth student is enrolled, we provide academic and social emotional supports to meet their individual needs. All policies are in compliance with local, state and federal requirements.

## Analysis

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year's LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Overall, the school was effective in implementing the services to meet its LCAP goals. School will collaborate with Human Resources and Human Capital departments to ensure all current hires have met requirements and any new hires are highly qualified/credentialed before the next school year. Receive school master schedules before beginning of year. Interim/ST staff permits are issued on an exception basis

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The school updated its calculation to more accurately reflect expenditures related to the above actions/services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There were no changes made to this goal, expected outcomes, metrics, or actions and services.

# Goal 2

## Analysis

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year's LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Overall, the school was effective in implementing the services to meet its LCAP goals. School will analyze student achievement data to prioritize next steps for professional development for teachers and instructional shifts. A new curriculum will be adopted for the 2018-19 school year to support a shift to conceptual math in core classes. A focus on closing skills gaps and benchmarking progress with interim assessments to analyze quantile growth will inform classroom practice in intervention courses.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The school updated its calculation to more accurately reflect expenditures related to the above actions/services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Moving forward, the school will modify the expected annual measureable outcomes related to SBAC performance from “Increase the percent of students scoring Met or Exceed Standard on the SBAC ELA and Math assessments,” to “Increase the percent of students scoring Met or Exceed Standard on the SBAC ELA and Math assessment or outperform the statewide average.” Additionally, the school will modify the goals related to English Learner performance to reference the English Language Proficiency Assessments for California (“ELPAC”) instead of the California English Language Development Test (“CELDT”) moving forward.

# Stakeholder Engagement

LCAP Year: 2018-19

## Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

During the 2017-18 school year, the School used several outreach strategies to engage with stakeholders on the LCAP. The School's efforts began in the fall of 2017 when the School Principal and Operations and Finance Manager reviewed the 2017-18 LCAP with the School Advisory Council ("SAC"). Since the first SAC meeting, the Principal referred to the LCAP and its goals during subsequent SAC meetings to ensure the LCAP was kept top of mind. The SAC is comprised of administrators, teachers, counselors, classified staff members, parents and students. The SAC also includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot's certificated staff.

The Green Dot Public Schools CA Home Office ("Green Dot Home Office"), including members of the Education, Knowledge Management, Policy & Public Affairs, Finance & Accounting and Operations teams, provided the School with updated data for each goal to help monitor and track progress for the 2018-19 Annual Update in May of 2018. The Principal reviewed the updated data with the SAC and reflected on changes from the previous year.

In conjunction with the different stakeholder groups, the Green Dot Home Office worked with School Leadership to update the 2018-19 Three-Year LCAP, taking into account the progress identified on the Annual Updates, revisions to actions/services, and updates to future expenditures. The 2018-19 LCAP was presented to the School Advisory Council during the May 2018 SAC meeting. The SAC reviewed the LCAP, including areas in the Annual Update where targets were missed, and provided feedback on additional actions/activities to address these areas in the future. Afterwards, the SAC approved the 2018-19 LCAP.

The Green Dot Home Office reviewed the 2018-19 Annual Updates across all Green Dot schools to identify trends, achievements and areas for improvement. This information was also shared with the Green Dot's Board of Directors Education Committee on April 10, 2018, which includes the President of the Asociación de Maestros Unidos.

The School LCAP was presented to the Green Dot Governing Board on June 29, 2018 for final approval. The LCAP was submitted to the Authorizing School District and the Los Angeles County Office of Education on June 29, 2018.

The Green Dot Home Office, School Leadership and SAC will regularly monitor and evaluate progress made towards the School's LCAP goals.

## Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

There are several ways that parents, teachers, and students influenced the LCAP. The LCAP was included in at least 4 of the monthly SAC meetings so stakeholders have time to understand, reflect, prioritize, and determine school-wide strategic planning foci for the upcoming year. They also monitor progress on current year strategic plans. In addition, the LCAP is included in our agendas for both Coffee With the Principal and in our Parent Workshops, so that parents are able to understand and provide our admin team with input, feedback, and suggestions for improvement that meets the needs of their children.

Teachers also give input by department and through grade level teams on instructional priorities. Our School Culture team provides oversight for the "Focus on School Culture" goals. The Instructional Leadership Team reviews the "Proficiency for All" and the "Preparation for College, Leadership, & Life" goals.

As a result of the stakeholder engagement, the school also made the following changes:

- Updated anticipated measurable outcomes to better align with available data
- Supplemented Section 2 with new activities, services and expenditures to support the School in meeting all LCAP goals and targets

Estimated Supplemental and Concentration Grant Funds

Percentage to Increase or Improve Services

\$777,981

34%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

**The funds will be spent on improving the charter-wide educational program and meeting the academic goals specified earlier in the LCAP. Note that the school has an unduplicated count percentage of 93% and therefore, it is deemed appropriate and effective to provide services to these students on a charter-wide basis. In addition, the needs of the unduplicated count population are met based on the charter-wide educational model and no additional services need to be provided.**

**In order to meet the needs of its diverse student population that school will look to implement Green Dot's academic model with fidelity.**

The model outlines the framework that allows Green Dot teachers and administrators to be successful and focuses on four key elements: 1) Ensuring Quality Teaching and Instruction, 2) Cultivating a College-going Culture, 3) Eliminating Barriers to Learning, and 4) Promoting Leadership and Life Skills. Implementation strategies are provided in the areas of curriculum, student intervention, professional development, parent participation and school operations to help principals and teachers make the most informed decisions for their schools.

- 1. Ensuring Quality Teaching & Instruction:** Dedicated, effective teachers with a passion for their work and their students are at the heart of the Green Dot model. Green Dot ensures high quality teaching and instruction in every classroom through its research-based methods of instruction, teacher effectiveness initiatives and robust professional development and supports. At the heart of The College-Ready Promise (T4CRP) TCRP Teacher Development and Evaluation System is the College-Ready Teaching Framework ("CRTF") – a rubric that defines the core competencies expected of all Green Dot teachers. In addition, teachers will be able to pursue professional development and coaching support from the Instructional Coaches as well as from the Green Dot Home Office Education Team.

2. **Cultivating a College-going Culture:** Green Dot strives to attain high college acceptance rates by creating a culture of college-for-certain. School leaders create systems for ongoing academic counseling with counselors and advisors and offering college tours at every grade level. In addition, the school master schedule offers elective courses that support core content development (i.e., drama), as well as pre-AP pathways (i.e., honors courses in middle school and high school). Courses are structured to build students' key cognitive strategies: intellectual openness, analysis, reasoning, accuracy and precision, and interpretation. School classrooms demonstrate the successful implementation of behavior management strategies. Support is provided to build key behaviors necessary for success in high school and college, such as self-monitoring, persistence, independent preparation abilities, and college-level study skills. Lastly, all Green Dot schools provide support to build students' contextual awareness of college systems and culture.
3. **Eliminating Barriers to Learning:** Students come to Green Dot from a variety of backgrounds. Academically, many are far behind grade-level. Socially and emotionally, many require emotional guidance in order to be able to succeed academically. Green Dot strives to provide the academic intervention, counseling and clinical services necessary to breakdown these barriers. Green Dot school leaders successfully implement all three tiers of the Response to Intervention Model by appropriately providing intervention in literacy, math, English Language Development and Special Education. Green Dot schools offer an Advisory program that provides academic guidance, school culture & safety; college and career; and personal development. Additionally, each school provides a menu of wrap-around services: mental health supports and psychological services; counseling groups; mentoring programs; and links to community partners for health and wellness programs.
4. **Promoting Leadership & Life Skills:** Green Dot aims to provide students with a broad set of tools, behaviors and skills to prepare them for college and beyond. Systems for student leadership such as student government, our student ambassador program, student mentorship, and the Principal's Advisory Committee give students internal leadership experience. External experience is available through partnerships with community programs, including public speaking opportunities, job shadowing, volunteer work, mentorships, and summer internships. Advisory programs teach and promote life skills and help to reduce dropouts, foster youth development, enhance academic achievement, and promote whole-being development.

**The schools' educational program will successfully meet the needs of its diverse student population. Examples of these supports include:**

- Implementation of all three tiers of the Multi-Tier System of Supports in Literacy, Math, English Language Development and Special Education
- Intensive interventions for students requiring additional enrichment and support, including Literacy Enrichment, Math Foundations, individualized tutoring, classroom push-in and co-teaching models and small strategic groupings
- An Advisory program for all students to prepare them with the tools and behaviors to succeed in high school, college, leadership and life – covering topics such as: academic preparation, promotion of college awareness, developing strong peer relationships, developing life skills in areas such as resiliency/grit, growth mindset, organization, communication, health/nutrition and personal finance
- Integrated wraparound services to help address social and non-academic barriers to student learning including small group counseling and individual student counseling
- Proactive and positive student behavior management, including various alternatives to suspension
- Opportunities for students to explore student leadership and other interests through participation in elective courses, student government, after-school programs and clubs

- Special education programs that cultivate collaboration between general and special education teachers to guarantee that students with disabilities are integrated into the school to the maximum extent possible to allow them full access to all programs.

**The school has developed a research-based curriculum appropriate to the student demographics it serves that includes the following: course offerings, textbooks, curriculum maps, pacing guides, sample lesson plans, interim assessments and intervention programs. The model is derived from the following continuum of research-based practices:**

- **Planning and Preparation:** Based on Essential Elements of Effective Instruction by Madeline Hunter. Madeline Hunter developed the teacher “decision-making model” for planning instruction known as Instructional Theory in Practice (“ITIP”). This approach to teaching uses Direct Instruction (“DI”) as the framework for planning. DI refers to a rigorously developed, highly scripted method that is fast-paced and provides constant interaction with students.
- **Assessment and Learning:** Based on Understanding by Design: Backwards Design by Jay McTighe and Grant Wiggins. The emphasis of Understanding by Design (“UbD”) is on “backward design,” the practice of identifying the desired outcomes in order to design curriculum units, performance assessments and classroom instruction that will enable students to achieve these outcomes. The backward design approach is developed in three stages. Stage 1 starts with educators identifying the desired results of their students by establishing the overall goal of the lessons by using content standards, common core or state standards. Stage 2 focuses on evidence of learning by assessment. Teachers plan performance tasks and evidence of understanding. Performance tasks determine what the students will demonstrate in the unit and what evidence will prove their understanding. This can include self-reflections and self-assessments on learning. Lastly, Stage 3 lists the learning activities that will lead students to the desired results.
- **Instructional Techniques:** Based on Teach Like a Champion by Doug Lemov. Teach Like a Champion offers effective teaching techniques to help teachers become champions in the classroom. Additional details provided in the section entitled “Instructional Design, Methods and Strategies.”
- **Classroom Environment:** Based on “Safe and Civil Schools” by Randy Sprick. Safe & Civil provides high-quality programs and staff development services to help educators create proactive and positive behavior management strategies in schools. These sessions include school walk-throughs with Safe & Civil program administrators to observe discipline and school culture. Findings from these sessions are compiled to create school-specific professional development for teachers and the necessary supports to create an environment where students can learn and where teachers can teach.
- **Culturally Responsive Pedagogy:** Green Dot Public Schools believes that culturally responsive pedagogy can increase student engagement, provide access to content, and as a result, bolster feelings of confidence and understanding in students.

**Academic Support and Intervention is based on incoming student need and a schedule of intervention and acceleration courses will be available to students so that all students can complete the required courses:**

- **Summer Bridge:** Summer Bridge is a recommended multi-week summer program that acclimates students to the culture of the school, high expectations and the development of a trusting community. During the Summer Bridge program, students will also be identified for special needs, English Learner levels, non-proficiency in standards and social-emotional supports, and staff will make the necessary adjustments to the master schedule to better accommodate them. Students receive standards-based instruction in Math and English Language Arts and are acclimated to

the culture and expectations of the school. Students will engage in culture-building exercises that promote a positive community of trust and respect. Social and personal issues will also be surfaced in small group settings complemented with educational field trips.

- **Literacy Intervention/Enrichment (Read 180):** Literacy Intervention/Enrichment is a standards-aligned program for reading is provided to students that test low in reading. Typically, this course is given to students through an elective class.
- **Math Foundations:** Students who are struggling in Math (not proficient and/or recommended by their Math teachers) will receive an additional period of Math support, where their teacher and tutors will work on skill building through their current curriculum, as well as remediation strategies to strengthen skills in group tutorial and one-on-one formats.
- **Designated and Integrated English Language Development (“ELD”):** Designated ELD classes are provided for all English Learner students and Integrated ELD is provided in all other content classes throughout the school day for English Learners. Designated ELD focuses on listening, speaking, reading and writing skills in English with the CA ELD Standards and Features of Designated ELD driving instruction. Integrated ELD focuses on academic content and English language skills in tandem so that English learners practice English language skills with academic content in all classes.
- **Special Needs/Academic Success:** Designated SPED students will be provided extra support to reflect the needs outlined in the Individualized Education Plan (“IEP”) and in all of their academic courses through one-on-one instruction, group support and guided instruction.
- **Homework Club:** Students who are struggling with a particular class or want more support in subject can attend Homework Club, which is offered an hour every day after school and run by a credentialed teacher and/or college interns.
- **Office Hours:** Teachers hold office hours twice a week after school to provide additional support.
- **Afterschool Program:** Students who are not achieving a satisfactory grade within a particular class or simply want more support in a subject can attend tutoring, which is offered for an hour every day after school.

**Social and Life Skills Development is a key component of the school meeting the diverse needs of its student population including the establishment of an advisory course and clinical services available to all students.**

Students will participate in an Advisory class with the same group of students for their school career to maintain a tighter sense of community. Advisory serves as a structured time and space for students to reflect on their learning and to discuss the connection between learning and life-long success. Advisory activities are organized around four pillars: 1) school culture and safety, 2) academics, 3) social life skills and 4) civic engagement. During Advisory, students will:

- Discuss issues related to the pressures of being a young adult in middle school including but not limited to puberty, relationships, mental health, family, substance abuse, etc.
- Acquire different study skill strategies, test-taking strategies and communication tools that will enable them to succeed in their academic career
- Learn about the college process as they are encouraged to think beyond middle and high school in an effort to realize that the tools they gain today will be beneficial in the near future
- Gain self-efficacy skills that will allow them to address the barriers of learning with resiliency

We have built an Advisory course into the master schedule to serve as a level 1 intervention using the Response to Intervention Model (RtI). Using the RtI model, all students receive the core literacy and math courses as their Tier 1 instruction. In addition to the core courses, students who need more intensive intervention (Tier 2) and support with a lower student-to-teacher ratio are provided with math and literacy interventions classes. If the student continues to struggle, the RtI team will determine if there are specific individual interventions (Tier 3) necessary to address the student's needs or if a referral to the Student Success Team is required.

Our Clinical Services team provides individual, group and family therapy to the students and families, and serves as a level 2 and 3 intervention within the RtI model. The main purpose of our clinical services program is to address the barriers to learning from the mental health perspective. In addition, we provide crisis intervention, parent consultation, teacher consultation, and case management which include providing resources and referrals to outside agencies.

In order to ensure services are provided free of charge, services are provided by pre- and post-graduate Marriage and Family Therapy, Psychology and Social Work interns who receive extensive training and supervision in exchange for their work. All services are supervised by one of our licensed Marriage and Family Therapists or Licensed Clinical Social Workers. Interns provide social and emotional counseling including small group and individual therapy.

The Clinical Services team uses a referral process for students to receive services. Once students and parents have consented to services, students have a case manager that follows them through the process of services. Students are provided Child Development Inventory assessments along with other researched-based therapies. The Clinical Services team works with parents, staff, and students throughout the referral process to ensure they are aware of their options. Clinical Services provides a proactive approach to addressing the barriers of learning by utilizing prevention and wellness to enable our students to possess the necessary skills to navigate their academic and social skills.

**The LEA will improve its entire educational program by investing in additional technology to increase its ratio of students to computers, additional special education services to support high needs students, and instructional material to increase support for classroom learning experience.**

- The school will offer a spectrum of special education services that may include a resource program, special day program, and programs for students classified as autistic, intellectually disabled, or emotionally disturbed. The programs are designed to foster a high-quality program for students with special education needs. Additionally, our special education programs cultivate collaboration between general and special education teachers to guarantee that students with disabilities are integrated into the school to the maximum extent possible to allow them full access to all programs.
- The school will offer ELD courses to prepare English Learners recently arrived in the U.S. for success in English-medium instruction, including English Language Arts. Skills in all four strands of language—listening, speaking, reading and writing—are systematically developed. Students of mixed grade levels are grouped according to proficiency in English. Cultural knowledge needed for success in U.S. schools is integrated throughout. The Green Dot EL Master Plan includes the new CA ELD standards and a five step process for the identification of English Learners including: 1) Initial Identification, 2) EL Proficiency Assessment, 3) Primary Language Assessment, 4) Parent Notification, and 5) Program Placement. Green Dot schools provide on-going training for administrators and teachers on the identification process.
- All EL students are served in both Designated and Integrated ELD designed to meet their needs. Instruction is based on the CA ELD Standards and the Features of Designated and Integrated ELD. These programs are built into the school's master schedule and take place within the school

day. The school will work with the Human Resources (HR) Department to ensure appropriate staffing and authorizations for teachers in these courses.

- Technology is widely used at the school to drive higher levels of achievement and prepare students for the information driven economy of the 21st century. It is also used as a critical tool for gathering data for school management. Technology investments will be made in the following areas:
  - Increased computing devices (e.g., desktops, laptops, Chromebooks) that are available for student use;
  - Each teacher is provided with a laptop and given training on effectively using technology in the classroom;
  - Courses often include web-based research projects and assignments;
  - Technology elective classes are included in the recommended curriculum to train students on computers and different software programs; and
  - A web-based student information and school management system is implemented at the school and used by parents, students and school staff
