## 2017-2020 Plan Summary

### The Story

Describe the students and community and how the LEA serves them.

Ánimo South Los Angeles Charter High School (ASLA) is in its 13th year of operation and is run by Green Dot Public Schools. The mission of Green Dot Public Schools is to change the landscape of public education in Los Angeles so that every child can receive a quality education that prepares them for college, leadership, and life. All Green Dot Public Schools were named “Ánimo,” a Spanish term meaning “vigor, mind, spirit, valor, effort, determination and the courage to overcome odds.”

ASLA opened its door at the beginning of the 2004-2005 school year. Our high school is located in South Los Angeles, near the unincorporated areas of Athens and Westmont in Los Angeles County. This section of the city is notorious for gang violence and crime. ASLA was launched in a community where the neighborhood high schools suffer from high dropout rates, low standardized test scores, overcrowding and violence. ASLA is located in a residential, urban, economically challenged area of 47,000 where ethnic distribution in the 90047 zip code is 65% of the population is African American and 31% Latino. The median household income is \$40,528 and the median per capita income is \$19,409. Unemployment is 13.2%. In this community, 29% of children (under 18) and 21% of individuals live below the poverty line.

ASLA serves approximately 620 students in grades 9 through 12. ASLA's student population is 100% Latino and African-American. With a breakdown of 67% Latino and 32% African-American, ASLA's student population is representative of the local community. In the 2017-8 school year, 16% of ASLA students were designated as English Learners and 13% received special education services. Currently, 93% of ASLA's student population are economically disadvantaged and receive free or reduced lunch based on federal guidelines.

### LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

Our teachers and staff prioritize keeping all of our students in school, an emphasis reflected in our improved graduation rate relative to neighboring schools. All of our students are enrolled in a college- preparatory curriculum and a college-going culture permeates our school, resulting in a high college attendance rate (two- and four-year) among our graduating seniors.

ASLA has a traditionally high graduation rate throughout the years starting with its first graduating class of 2008. ASLA's four year adjusted dropout rate continued to be very strong, which demonstrates our commitment to advancing students in all grades towards graduation. ASLA's adjusted Grade 9-12 dropout rate was just 1.5%, well below district, county, and statewide averages.

ASLA has a high graduation rate, managing to graduate 94% or more of seniors in each of the past several years. We have recently increased our emphasis on graduates completing all A-G requirements, however, as in 2014-2015, approximately 74% of seniors graduated A-G ready. Over 75% of our seniors attended college after graduation for the last three years, and last year for the first time in our history over half of our college-going students attended 4 year colleges. Additionally, 70% of our original 9th graders graduated at Ánimo South Los Angeles four years later.

## **Review of Performance**

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

### **Greatest Progress**

The LCAP uncovered a number of strengths. In particular, ASLA is proud of its progress with English Learners and graduation rates, as evidenced by its green ratings on the CA School Dashboard. This is a testament to the school's efforts in meeting students where they are and helping them to grow. To ensure future growth, ASLA will continue implementing the educational model articulated in its charter petition, which is based on strong academic and socioemotional supports. Additionally, ASLA continues to expand its special education program and clinical services in order to meet the needs of the student's academic and social emotional needs.

### **Greatest Needs**

The LCAP uncovered a number of strengths. In particular, ASLA is proud of its progress with English Learners and graduation rates, as evidenced by its green ratings on the CA School Dashboard. This is a testament to the school's efforts in meeting students where they are and helping them to grow. To ensure future growth, ASLA will continue implementing the educational model articulated in its charter petition, which is based on strong academic and socioemotional supports. Additionally, ASLA continues to expand its special education program and clinical services in order to meet the needs of the student's academic and social emotional needs.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

## Performance Gaps

ASLA’s only performance gap is suspension rate among students with disabilities. ASLA is focused on reducing suspension rates for all students, including students with disabilities. As mentioned above, ASLA has been investing additional resources in supporting students with disabilities. In the past year, ASLA has hired an additional special educational specialist and 2 instructional aides to help support students with disabilities. The additional personnel, as well as professional development focused on positive behavior interventions, alternatives to suspensions and restorative justice practices, will result in a reduction of suspension rates for students with disabilities.

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

## Increased or Improved services

As mentioned above, ASLA’s student population largely falls into one of the categories listed above. As such, the entire educational program is designed to meet the needs of low-income students, English Learners and foster youth. In particular, ASLA will continue investing in English Learners and students with disabilities through the interventions listed above.

Additionally, all Green Dot schools recently enrolled in LACOE’s educational passport system database to help us better identify foster youth, streamline the enrollment process and provide appropriate supports to students. Once a foster youth student is enrolled, we provide academic and social emotional supports to meet their individual needs. All policies are in compliance with local, state and federal requirements.

## Budget Summary

Complete the table below. LEAs may include additional information or more detail, including graphics.

DESCRIPTION	AMOUNT
Total General Fund Budget Expenditures For LCAP Year	\$ 8,645,489
Total Funds Budgeted for Planned Actions/Services to Meet The Goals in the LCAP for LCAP Year	\$ 7,179,283

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

While the LCAP includes a majority of the school’s expenses, it does not include the following expenses: insurance; authorizing entity’s oversight fee; penalties and late fees; depreciation; transfers from other locations; bond interest and fees; debt interest; contracted service fees; staff benefits, overtime, bonuses and

stipend expenses, and cash reserves. Additional revenue is generated from federal grants, competitive grants and private philanthropy.

## Analysis

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year's LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Overall, the school was effective in implementing the services to meet its LCAP goals. School will collaborate with Human Resources and Human Capital departments to ensure all current hires have met requirements and any new hires are highly qualified/credentialed before the next school year. Receive school master schedules before beginning of year. Interim/ST staff permits are issued on an exception basis.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The school updated its calculation to more accurately reflect expenditures related to the above actions/services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There were no changes made to this goal, expected outcomes, metrics, or actions and services.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year's LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Overall, the school was effective in implementing the services to meet its LCAP goals. School will analyze student achievement data to prioritize next steps for professional development for teachers and instructional shifts. A focus on literacy across the curriculum and benchmarking progress with interim lexile assessments will inform classroom practice. Core classes will focus on a shift to conceptual math. A focus on closing skills gaps and benchmarking progress with interim assessments to analyze quantile growth will inform classroom practice in support courses.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The school updated its calculation to more accurately reflect expenditures related to the above actions/services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Moving forward, the school will modify the expected annual measurable outcomes related to SBAC performance from "Increase the percent of students scoring Met or Exceed Standard on the SBAC ELA and Math assessments," to "Increase the percent of students scoring Met or Exceed Standard on the SBAC ELA and Math assessment or outperform the statewide average." Additionally, the school will modify the goals related to

English Learner performance to reference the English Language Proficiency Assessments for California (“ELPAC”) instead of the California English Language Development Test (“CELDT”) moving forward.

# Goal 3

Prepared for college, leadership and life

- 12. Increase the percent of graduates that successfully complete A-G course requirements.
- 13. Increase the percent of graduating students who take Advanced Placement (“AP”) exams and earn at least one passing score of 3 or above.
- 14. Increase EAP passage rates in ELA.
- 15. Increase EAP passage rates in Math.
- 16. Maintain low cohort dropout rates.
- 17. Increase graduation rates.

## Analysis

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year's LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

School will analyze student achievement data to prioritize next steps for professional development for teachers and instructional shifts. A focus on literacy across the curriculum and benchmarking progress with interim lexile assessments will inform classroom practice. Core classes will focus on a shift to conceptual math. A focus on closing skills gaps and benchmarking progress with interim assessments to analyze quantile growth will inform classroom practice in support courses. The school will continue to develop opportunities for credit recovery during the school day and summer. Data will be analyzed by the school administration team and counselors to determine additional next steps. The school will continue to work with all students to progress monitor towards graduation beginning in the 9th grade. Counselors will do intensive work with 11th and 12th graders to ensure credit recovery options are available and students are on track.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The school updated its calculation to more accurately reflect expenditures related to the above actions/services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There were no changes made to this goal, expected outcomes, metrics, or actions and services.

## Analysis

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year's LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

School will continue to work with its School Culture Team to provide interventions to its most wanting students. The Safe & Civil team will focus on Response to Intervention/Multi-Tier System of Services (RTI/MTSS) to ensure that the school has interventions that support students at all tiers. The school will also continue to build out its alternatives to suspension. The school will be offering a new teacher leadership position, School EL Lead, who will work with the Green Dot EL Coordinator to ensure the school is support EL students on academic and behavioral programs. School will continue to utilize the SART process and will provide additional opportunities to engage with families on discipline, academics and attendance in the next school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The school updated its calculation to more accurately reflect expenditures related to the above actions/services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the actions/services were implemented as described in the previous year’s LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The school will work with its community to better understand its stakeholder’s demands and mitigate concerns stakeholders may have. The school is open to feedback from stakeholders and community members, and aims to meet the needs of all students while creating a college-going atmosphere. The school has been split-sited for the past three years due to unfortunate circumstances. Thankfully, the school has been reunited on one campus, which the school hopes will improve the high school experience for all students.

# Stakeholder Engagement

LCAP Year: 2018-19

## Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

During the 2017-18 school year, the School used several outreach strategies to engage with stakeholders on the LCAP. The School's efforts began in the fall of 2017 when the School Principal and Operations and Finance Manager reviewed the 2017-18 LCAP with the School Advisory Council ("SAC"). Since the first SAC meeting, the Principal referred to the LCAP and its goals during subsequent SAC meetings to ensure the LCAP was kept top of mind. The SAC is comprised of administrators, teachers, counselors, classified staff members, parents and students. The SAC also includes representation from the Asociación de Maestros Unidos, the union that represents Green Dot's certificated staff.

The Green Dot Public Schools CA Home Office ("Green Dot Home Office"), including members of the Education, Knowledge Management, Policy & Public Affairs, Finance & Accounting and Operations teams, provided the School with updated data for each goal to help monitor and track progress for the 2018-19 Annual Update in May of 2018. The Principal reviewed the updated data with the SAC and reflected on changes from the previous year.

In conjunction with the different stakeholder groups, the Green Dot Home Office worked with School Leadership to update the 2018-19 Three-Year LCAP, taking into account the progress identified on the Annual Updates, revisions to actions/services, and updates to future expenditures. The 2018-19 LCAP was presented to the School Advisory Council during the May 2018 SAC meeting. The SAC reviewed the LCAP, including areas in the Annual Update where targets were missed, and provided feedback on additional actions/activities to address these areas in the future. Afterwards, the SAC approved the 2018-19 LCAP.

The Green Dot Home Office reviewed the 2018-19 Annual Updates across all Green Dot schools to identify trends, achievements and areas for improvement. This information was also shared with the Green Dot's Board of Directors Education Committee on April 10, 2018, which includes the President of the Asociación de Maestros Unidos.

The School LCAP was presented to the Green Dot Governing Board on June 29, 2018 for final approval. The LCAP was submitted to the Authorizing School District and the Los Angeles County Office of Education on June 29, 2018.

The Green Dot Home Office, School Leadership and SAC will regularly monitor and evaluate progress made towards the School's LCAP goals.

## Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

There are several ways that parents, teachers, and students influenced the LCAP. The LCAP was included in at least 4 of the monthly SAC meetings so stakeholders have time to understand, reflect, prioritize, and determine school-wide strategic planning foci for the upcoming year. They also monitor progress on current year strategic plans. In addition, the LCAP is included in our agendas for both Coffee With the Principal and in our Parent Workshops, so that parents are able to understand and provide our admin team with input, feedback, and suggestions for improvement that meets the needs of their children.

Teachers also give input by department and through grade level teams on instructional priorities. Our School Culture team provides oversight for the "Focus on School Culture" goals. The Instructional Leadership Team reviews the "Proficiency for All" and the "Preparation for College, Leadership, & Life" goals.

As a result of the stakeholder engagement, the school also made the following changes:

- Updated anticipated measurable outcomes to better align with available data
- Supplemented Section 2 with new activities, services and expenditures to support the School in meeting all LCAP goals and targets
- Updated the calculation of several metrics to align with the methodologies requested by CA Department of Education or Local Authorizing Entity

# Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2018-19**

Estimated Supplemental and Concentration Grant Funds

Percentage to Increase or Improve Services

\$1,801,603

32.81%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

**The funds will be spent on improving the charter-wide educational program and meeting the academic goals specified earlier in the LCAP. Note that the school has an unduplicated count percentage of 88.05% and therefore, it is deemed appropriate and effective to provide services to these students on a charter-wide basis. In addition, the needs of the unduplicated count population are met based on the charter-wide educational model and no additional services need to be provided.**

**In order to meet the needs of its diverse student population that school will look to implement Green Dot's academic model with fidelity.**

The model outlines the framework that allows Green Dot teachers and administrators to be successful and focuses on four key elements: 1) Ensuring Quality Teaching and Instruction, 2) Cultivating a College-going Culture, 3) Eliminating Barriers to Learning, and 4) Promoting Leadership and Life Skills. Implementation strategies are provided in the areas of curriculum, student intervention, professional development, parent participation and school operations to help principals and teachers make the most informed decisions for their schools.

- 1. Ensuring Quality Teaching & Instruction:** Dedicated, effective teachers with a passion for their work and their students are at the heart of the Green Dot model. Green Dot ensures high quality teaching and instruction in every classroom through its research-based methods of instruction, teacher effectiveness initiatives and robust professional development and supports. At the heart of The College-Ready Promise (T4CRP) TCRP Teacher Development and Evaluation System is the College-Ready Teaching Framework ("CRTF") – a rubric that defines the core competencies expected of all Green Dot teachers. In addition, teachers will be able to pursue professional development and coaching support from the Instructional Coaches as well as from the Green Dot Home Office Education Team.

2. **Cultivating a College-going Culture:** Green Dot strives to attain high college acceptance rates by creating a culture of college-for-certain. School leaders create systems for ongoing academic counseling with counselors and advisor and offering college tours at every grade level. In addition, the school master schedule offers elective courses that support core content development (i.e., drama), as well as pre-AP pathways (i.e., honors courses in middle school and high school). Courses are structured to build students' key cognitive strategies: intellectual openness, analysis, reasoning, accuracy and precision, and interpretation. School classrooms demonstrate the successful implementation of behavior management strategies. Support is provided to build key behaviors necessary for success in high school and college, such as self-monitoring, persistence, independent preparation abilities, and college-level study skills. Lastly, all Green Dot schools provide support to build students' contextual awareness of college systems and culture.
3. **Eliminating Barriers to Learning:** Students come to Green Dot from a variety of backgrounds. Academically, many are far behind grade-level. Socially and emotionally, many require emotional guidance in order to be able to succeed academically. Green Dot strives to provide the academic intervention, counseling and clinical services necessary to breakdown these barriers. Green Dot school leaders successfully implement all three tiers of the Response to Intervention Model by appropriately providing intervention in literacy, math, English Language Development and Special Education. Green Dot schools offer an Advisory program that provides academic guidance, school culture & safety; college and career; and personal development. Additionally, each school provides a menu of wrap-around services: mental health supports and psychological services; counseling groups; mentoring programs; and links to community partners for health and wellness programs.
4. **Promoting Leadership & Life Skills:** Green Dot aims to provide students with a broad set of tools, behaviors and skills to prepare them for college and beyond. Systems for student leadership such as student government, our student ambassador program, student mentorship, and the Principal's Advisory Committee give students internal leadership experience. External experience is available through partnerships with community programs, including public speaking opportunities, job shadowing, volunteer work, mentorships, and summer internships. Advisory programs teach and promote life skills and help to reduce dropouts, foster youth development, enhance academic achievement, and promote whole-being development.

**The schools' educational program will successfully meet the needs of its diverse student population. Examples of these supports include:**

- Implementation of all three tiers of the Multi-Tier System of Supports in Literacy, Math, English Language Development and Special Education
- Intensive interventions for students requiring additional enrichment and support, including Literacy Enrichment, Math Foundations, individualized tutoring, classroom push-in and co-teaching models and small strategic groupings
- An Advisory program for all students to prepare them with the tools and behaviors to succeed in high school, college, leadership and life – covering topics such as: academic preparation, promotion of college awareness, developing strong peer relationships, developing life skills in areas such as resiliency/grit, growth mindset, organization, communication, health/nutrition and personal finance
- Integrated wraparound services to help address social and non-academic barriers to student learning including small group counseling and individual student counseling
- Proactive and positive student behavior management, including various alternatives to suspension
- Opportunities for students to explore student leadership and other interests through participation in elective courses, student government, after-school programs and clubs

- Special education programs that cultivate collaboration between general and special education teachers to guarantee that students with disabilities are integrated into the school to the maximum extent possible to allow them full access to all programs.

**The school has developed a research-based curriculum appropriate to the student demographics it serves that includes the following: course offerings, textbooks, curriculum maps, pacing guides, sample lesson plans, interim assessments and intervention programs. The model is derived from the following continuum of research-based practices:**

- **Planning and Preparation:** Based on Essential Elements of Effective Instruction by Madeline Hunter. Madeline Hunter developed the teacher “decision-making model” for planning instruction known as Instructional Theory in Practice (“ITIP”). This approach to teaching uses Direct Instruction (“DI”) as the framework for planning. DI refers to a rigorously developed, highly scripted method that is fast-paced and provides constant interaction with students.
- **Assessment and Learning:** Based on Understanding by Design: Backwards Design by Jay McTighe and Grant Wiggins. The emphasis of Understanding by Design (“UbD”) is on “backward design,” the practice of identifying the desired outcomes in order to design curriculum units, performance assessments and classroom instruction that will enable students to achieve these outcomes. The backward design approach is developed in three stages. Stage 1 starts with educators identifying the desired results of their students by establishing the overall goal of the lessons by using content standards, common core or state standards. Stage 2 focuses on evidence of learning by assessment. Teachers plan performance tasks and evidence of understanding. Performance tasks determine what the students will demonstrate in the unit and what evidence will prove their understanding. This can include self-reflections and self-assessments on learning. Lastly, Stage 3 lists the learning activities that will lead students to the desired results.
- **Instructional Techniques:** Based on Teach Like a Champion by Doug Lemov. Teach Like a Champion offers effective teaching techniques to help teachers become champions in the classroom. Additional details provided in the section entitled “Instructional Design, Methods and Strategies.”
- **Classroom Environment:** Based on “Safe and Civil Schools” by Randy Sprick. Safe & Civil provides high-quality programs and staff development services to help educators create proactive and positive behavior management strategies in schools. These sessions include school walk-throughs with Safe & Civil program administrators to observe discipline and school culture. Findings from these sessions are compiled to create school-specific professional development for teachers and the necessary supports to create an environment where students can learn and where teachers can teach.
- **Culturally Responsive Pedagogy:** Green Dot Public Schools believes that culturally responsive pedagogy can increase student engagement, provide access to content, and as a result, bolster feelings of confidence and understanding in students.

**Academic Support and Intervention is based on incoming student need and a schedule of intervention and acceleration courses will be available to students so that all students can complete the required courses:**

- **Summer Bridge:** Summer Bridge is a recommended multi-week summer program that acclimates students to the culture of the school, high expectations and the development of a trusting community. During the Summer Bridge program, students will also be identified for special needs, English Learner levels, non-proficiency in standards and social-emotional supports, and staff will make the necessary adjustments to the master schedule to better accommodate them. Students receive standards-based instruction in Math and English Language Arts and are acclimated to

the culture and expectations of the school. Students will engage in culture-building exercises that promote a positive community of trust and respect. Social and personal issues will also be surfaced in small group settings complemented with educational field trips.

- **Literacy Intervention/Enrichment (Read 180):** Literacy Intervention/Enrichment is a standards-aligned program for reading is provided to students that test low in reading. Typically, this course is given to students through an elective class.
- **Math Foundations:** Students who are struggling in Math (not proficient and/or recommended by their Math teachers) will receive an additional period of Math support, where their teacher and tutors will work on skill building through their current curriculum, as well as remediation strategies to strengthen skills in group tutorial and one-on-one formats.
- **Designated and Integrated English Language Development (“ELD”):** Designated ELD classes are provided for all English Learner students and Integrated ELD is provided in all other content classes throughout the school day for English Learners. Designated ELD focuses on listening, speaking, reading and writing skills in English with the CA ELD Standards and Features of Designated ELD driving instruction. Integrated ELD focuses on academic content and English language skills in tandem so that English learners practice English language skills with academic content in all classes.
- **Special Needs/Academic Success:** Designated SPED students will be provided extra support to reflect the needs outlined in the Individualized Education Plan (“IEP”) and in all of their academic courses through one-on-one instruction, group support and guided instruction.
- **Homework Club:** Students who are struggling with a particular class or want more support in subject can attend Homework Club, which is offered an hour every day after school and run by a credentialed teacher and/or college interns.
- **Office Hours:** Teachers hold office hours twice a week after school to provide additional support.
- **Afterschool Program:** Students who are not achieving a satisfactory grade within a particular class or simply want more support in a subject can attend tutoring, which is offered for an hour every day after school.

**Social and Life Skills Development is a key component of the school meeting the diverse needs of its student population including the establishment of an advisory course and clinical services available to all students.**

Students will participate in an Advisory class with the same group of students for their school career to maintain a tighter sense of community. Advisory serves as a structured time and space for students to reflect on their learning and to discuss the connection between learning and life-long success. Advisory activities are organized around four pillars: 1) school culture and safety, 2) academics, 3) social life skills and 4) civic engagement. During Advisory, students will:

- Discuss issues related to the pressures of being a young adult in middle school including but not limited to puberty, relationships, mental health, family, substance abuse, etc.
- Acquire different study skill strategies, test-taking strategies and communication tools that will enable them to succeed in their academic career
- Learn about the college process as they are encouraged to think beyond middle and high school in an effort to realize that the tools they gain today will be beneficial in the near future
- Gain self-efficacy skills that will allow them to address the barriers of learning with resiliency

We have built an Advisory course into the master schedule to serve as a level 1 intervention using the Response to Intervention Model (RtI). Using the RtI model, all students receive the core literacy and math courses as their Tier 1 instruction. In addition to the core courses, students who need more intensive intervention (Tier 2) and support with a lower student-to-teacher ratio are provided with math and literacy interventions classes. If the student continues to struggle, the RtI team will determine if there are specific individual interventions (Tier 3) necessary to address the student's needs or if a referral to the Student Success Team is required.

Our Clinical Services team provides individual, group and family therapy to the students and families, and serves as a level 2 and 3 intervention within the RtI model. The main purpose of our clinical services program is to address the barriers to learning from the mental health perspective. In addition, we provide crisis intervention, parent consultation, teacher consultation, and case management which include providing resources and referrals to outside agencies.

In order to ensure services are provided free of charge, services are provided by pre- and post-graduate Marriage and Family Therapy, Psychology and Social Work interns who receive extensive training and supervision in exchange for their work. All services are supervised by one of our licensed Marriage and Family Therapists or Licensed Clinical Social Workers. Interns provide social and emotional counseling including small group and individual therapy.

The Clinical Services team uses a referral process for students to receive services. Once students and parents have consented to services, students have a case manager that follows them through the process of services. Students are provided Child Development Inventory assessments along with other researched-based therapies. The Clinical Services team works with parents, staff, and students throughout the referral process to ensure they are aware of their options. Clinical Services provides a proactive approach to addressing the barriers of learning by utilizing prevention and wellness to enable our students to possess the necessary skills to navigate their academic and social skills.

**The LEA will improve its entire educational program by investing in additional technology to increase its ratio of students to computers, additional special education services to support high needs students, and instructional material to increase support for classroom learning experience.**

- The school will offer a spectrum of special education services that may include a resource program, special day program, and programs for students classified as autistic, intellectually disabled, or emotionally disturbed. The programs are designed to foster a high-quality program for students with special education needs. Additionally, our special education programs cultivate collaboration between general and special education teachers to guarantee that students with disabilities are integrated into the school to the maximum extent possible to allow them full access to all programs.
- The school will offer ELD courses to prepare English Learners recently arrived in the U.S. for success in English-medium instruction, including English Language Arts. Skills in all four strands of language—listening, speaking, reading and writing—are systematically developed. Students of mixed grade levels are grouped according to proficiency in English. Cultural knowledge needed for success in U.S. schools is integrated throughout. The Green Dot EL Master Plan includes the new CA ELD standards and a five step process for the identification of English Learners including: 1) Initial Identification, 2) EL Proficiency Assessment, 3) Primary Language Assessment, 4) Parent Notification, and 5) Program Placement. Green Dot schools provide on-going training for administrators and teachers on the identification process.
- All EL students are served in both Designated and Integrated ELD designed to meet their needs. Instruction is based on the CA ELD Standards and the Features of Designated and Integrated ELD. These programs are built into the school's master schedule and take place within the school

day. The school will work with the Human Resources (HR) Department to ensure appropriate staffing and authorizations for teachers in these courses.

- Technology is widely used at the school to drive higher levels of achievement and prepare students for the information driven economy of the 21st century. It is also used as a critical tool for gathering data for school management. Technology investments will be made in the following areas:
  - Increased computing devices (e.g., desktops, laptops, Chromebooks) that are available for student use;
  - Each teacher is provided with a laptop and given training on effectively using technology in the classroom;
  - Courses often include web-based research projects and assignments;
  - Technology elective classes are included in the recommended curriculum to train students on computers and different software programs; and
  - A web-based student information and school management system is implemented at the school and used by parents, students and school staff
